DATES FOR DEBATES

CHAIRMEN GOWDY AND TAGGART REACH SATISFACTORY TERMS.

First Event to Be Given at Evansville—Rail's Friends Working Openly Against Bynum.

The chairmen and secretaries of the Republican and Democratic State committees had a conference at the Grand Hotel, last night, to arrange for the much-talked-about series of debates between W. D. Owen and Captain Myers, the opposing candidates for Secretary of State. There was no difficulty whatever in arranging the order of these meetings, neither side being at all disposed to quibble about trifles. Matters were speedily fixed up to the apparent satisfaction of both Chairmen Gowdy and Taggart, and the gentlemen who are directing the destinies of the two great political parties in Indiana this year met, mingled and separated with apparently the friendliest feeling. There was no suggestion of impending political strife and the oratorical combat, the details of which were calmly arranged—might have been the preliminary list for a county fair or any other boodling gathering so far as any outward manifestation went of a disposition to hold out for the best of it.

It had been previously agreed that the meetings should take place in the largest cities of each congressional district. Chairman Taggart started the list off by conceding to Chairman Gowdy the opening of the Evansville meeting. It was arranged that the districts should be taken in their order; that each speaker was to have one hour and a quarter, the one who opened to take an hour then and fifteen minutes at the finish of the meeting, his opponent to come between with a speech occupying the full time limit. Mr. Owen will open the first district meeting at Evansville Tuesday, Oct. 2, and the candidates will debate this advantage until the Thirteenth district is reached, when the Democrats gain a point through the good luck of Chairman Taggart, who picked the winner on a big silver dollar flipper by Secretary Gowdy of the Republican committee. It was necessary to toss for the advantage in this district, and the Democrats won. Their luck, however, deserted them when it came to tossing again to see which party should stand the expense of this thirteenth meeting, for their chairman called "heads," and it did so. He had offered, on the committee's part, to stand the expense of the meeting, but Messrs. Gowdy and Taggart thought fair to toss for it, and did so, coming out all right this time.

Each committee will therefore stand the expense of the meeting at which its candidate opens and closes the debate. The time of the meetings was left to the discretion of the committee, the Republicans to decide where their champion opens, and vice versa.

The list and order of meetings arranged as follows:

- First district, Evansville, Oct. 2. Owen to open and close.
- Second district, Vincennes, Thursday, Oct. 4. Myers to open and close.
- Third district, New Albany, Saturday, Oct. 6. Owen to open and close.
- Fourth district, Lawrenceburg, Tuesday, Oct. 8. Myers to open and close.
- Fifth district, Columbus, Thursday, Oct. 11. Owen to open and close.
- Sixth district, Richmond, Saturday, Oct. 13. Myers to open and close.
- Seventh district, Indianapolis, Tuesday, Oct. 15. Owen to open and close.
- Eighth district, Terre Haute, Thursday, Oct. 18. Myers to open and close.
- Ninth district, Lafayette, Saturday, Oct. 20. Owen to open and close.
- Tenth district, Logansport, Tuesday, Oct. 22. Myers to open and close.
- Eleventh district, Marion, Thursday, Oct. 25. Owen to open and close.
- Twelfth district, Fort Wayne, Saturday, Oct. 27. Myers to open and close.
- Thirteenth district, South Bend, Monday, Oct. 29. Myers to open and close.

The Democrats thus get seven openings and the Republicans six, but the latter think they can stand the handicap of the year and still have plenty of leeway. The Indianapolis meeting will be held on the evening of Tuesday, Oct. 15.

RAIL'S FRIENDS HAVE A KNIFE.

Announce Their Intention of Using It on Bynum.

Last fall when Mr. Bynum decided that John Rall did not have enough education to hold the responsible position of internal revenue collector in this city, he did not realize that, although Mr. Rall is a poor man, and has been a workman all over his life, he has a host of friends all over the city who would have a chance to turn the tables some day. He would probably realize that fact now if he should take a trip over this city and talk with the workmen, not only the Irish, but workmen of all nationalities. Yesterday a young Irish business man of the city, who has never been prominent in politics, his business requiring all of his time, sent to a Journal representative: "I have voted the Democratic ticket all of my life, but I will say now that Grassburner Bynum will not get my vote this fall. I am not the only one of the Irish Democrats who will scratch him; there are hundreds of others who will do the same thing. The Irish people of this city consider Mr. Bynum's action last fall in refusing to recommend John Rall for collector a direct affront to the Irish Democrats, and will show him what it means to insult them in that way. He said that Mr. Rall did not have sufficient education to properly fill the position." He then named a dozen or more Irishmen who had said that they would not vote for Mr. Bynum on that account, and said he could name twice as many more whom he had never heard make the direct assertion that they would not support him, but from their knowledge of what he knew that was the time came to vote, Mr. Bynum's name would not appear on their tickets.

This man is not alone in openly denouncing Mr. Bynum's action and repudiating him. Several others have made the same assertion, and each one could name a number of friends who they said would scratch Mr. Bynum. Mr. Rall is a man who by his hard work has made a large number of friends, not only among his associate workmen, but among the business men of the city, and when he stated last fall that Mr. Bynum had positively promised him this position not one would doubt his statement, and now it seems that Mr. Bynum is in a fair way to reap the benefit of his failure to fulfill his promise made to a man with the number of friends who will cling to him. This movement is not new by any means. It was started immediately after the appointment of Mr. Tanner last fall, but was kept very quiet for some time. Mr. Bynum would hear of it and refuse to accept the nomination again, thus defeating the plans of Mr. Rall's friends for revenge. They feel that the excuse offered by Mr. Bynum was not sufficient, and that it was merely a subterfuge for the appointment of Mr. Tanner.

THE INFAMOUS GERRYMANDER.

W. W. Thornton Discusses It at a Ninth Ward Meeting.

At a meeting last night of the Ninth Ward Lincoln League on Dillon street addresses were made by W. W. Thornton, George W. Galvin and others. Mr. Thornton spoke on the gerrymander in Indiana and in part said: "In 1892 the Democratic party in the State cast 362,740 votes for presidential electors and the Republicans cast 255,610. In Indiana we have fifty State Senators. If there was perfect equality in the matter of State senatorial representation then every Senator would represent just 11,000 votes, but of course such an equality is impossible, having regard for political and geographical division of the State. These 11,000 votes may be termed the basis of representation for State Senators. But the Democrats in 1892 so apportioned the State that though they had only 7,125 more votes in 1892 than the Republicans yet according to the vote cast that year for President they are entitled to thirty-four and the Republicans to only sixteen Senators. Every Republican Senator represents 15,982 voters, while every Democratic Senator represents only 7,727. In other words, 252,790 Democrats elect thirty-four Senators, while 255,610 Republicans elect only sixteen Senators. Take the case of the Representatives in the lower house of our State Legislature. As you know, there are one hundred of them, or, according to the vote of 1892, one for every 5,500 voters. Yet if the plan of the State Representatives was distributed as was the vote for electors in 1892 the Democrats would have sixty-eight and the Republicans only thirty-two Representatives. In other words, such a

publican Representative would represent 7,900 voters and each Democrat only 5,860."

Hon. Charles L. Henry at Southport. Hon. Charles L. Henry addressed a large crowd in Warrman's Hall, in Southport, last night. The hall is a large one and was filled to overflowing with a very enthusiastic crowd. Mr. Henry discussed the political issues of the day in a way that interested his hearers whether they were Republican, Democrat or Populist. Mr. Henry was followed by Thomas Boyd, of Noblesville, and several other good speakers.

NEW \$100,000 SEWER

WORKS BOARD ORDERS PAPERS FOR THE MAIN INTERCEPTOR.

It Will Carry Sewage from the Fourteenth-Street Sewer to White River.

Another hundred-thousand-dollar sewer is soon to be added to the city's system. The Board of Works yesterday instructed the city engineer to prepare the necessary papers for the main interceptor, commonly known as the White river interceptor. It is the link necessary to complete the chain of sewers in the northeastern part of the city, and until it is completed only a limited amount of sewage can be turned into the Fourteenth-street sewer. This new sewer will begin where the Fourteenth-street sewer across North Capitol avenue, and will be thirty inches in diameter at that point, increasing to four and one-half feet where it discharges into the interceptor at Kentucky avenue and Eckert street.

The route is not definitely settled yet, but it will follow the general route as indicated in the survey made a few years ago. Beginning at Fourteenth street and Capitol avenue, it will run to Twelfth street, west on Twelfth street and across the canal near the south end of broad cut, and then follow the old race bed and Brook street, crossing Indiana avenue near the Fall creek bridge, following First street to the old race back of the City Hospital. It will then follow the bed of the race nearly to White river, when it will turn slightly to the east and follow the bank of the river down to Greenlawn cemetery, which it will cross and connect with the other interceptor at Kentucky avenue and Eckert street. This route is approximately correct, but may be changed on account of the buildings which line the banks of the river from Washington street south.

In proportion to its diameter, this will be one of the most costly sewers yet built in the city. The increased cost will be on account of the excavation, which will be about 40 per cent. of the cost of the work to be done. The cost of the sewer will be \$100,000, and probably as much as \$125,000. It will be about 19,000 feet in length.

AWARDED TO THE NEW COMPANY.

Asphalt Contract for South Meridian Street Let.

The Board of Public Works yesterday afternoon awarded the contract for asphalt paving South Meridian street, from South to McCarty street, to the Trinidad Asphalt Refining Company, of New York, at \$3.41 a foot. The lowest bidder was \$6.63 a foot, which makes a saving to the property owners of \$3,650.58 by giving the contract to the new company. The difference between the highest and lowest bid is \$7,742, which makes the highest bid 34 per cent. higher than the bid of the new company. Besides the regular guarantee bond to keep the street in repair for five years the company will give a bond amounting to 40 per cent. of the cost of the work to replace the street if at the end of five years it does not prove to be as good as any street laid in the city. The work is to be completed Nov. 1, and the contract will impose a fine of \$50 a day for each day after that date that the street remains incomplete.

WINTER STREET CLEANING.

Work of All Seasons to Be Done Under One Contract Hereafter.

The Board of Works yesterday adopted a resolution providing for the cleaning of the improved street from Oct. 5, 1894, to the first Monday in November, 1895. Heretofore two contracts have been let, one for the summer work and the other for the winter cleaning. In the future it will be done under one contract. The following declaratory resolutions for sewers and street improvements were also adopted: For the vacation of ten feet off the north side and ten feet off the south side of Irwin street, from Cornell avenue to the first alley east of Cornell avenue. For grading and graveling the second alley south of McCarty street, from Sullivan street to the first alley west of Sullivan street. For grading and paving with brick the west sidewalk of Randolph street, from Washington street to Keller street. For the construction of a local sewer in the first alley east of Pennsylvania street, from the main sewer in Fourteenth street to a point 46 feet north of Seventeenth street.

For the construction of a local sewer in the first alley east of Central avenue, from the south property line of Tenth street to the center of Eighth street, thence east in Eighth street to the first alley west of Park avenue; thence south in that alley to the north property line of Seventh street.

For grading and bowldering the first alley between Davidson street, from New York to Vermont street.

Uncalled-For Election Pay.

That there are some people in this city who have plenty of money is evidenced by the fact that forty-one persons who served on the election boards last fall have not yet called for the warrants which are in the control of the city to compensate them for their services. The forty-one warrants amount to \$67.50.

Will Discuss Green's Olfactory.

The Board of Health will meet this morning at 10 o'clock for the transaction of its regular monthly business, including the auditing of last month's bill. It will also consider the letter from Green's Smith in regard to the disagreeable smell which comes from the Kingan pork-packing establishment.

Dougherty-Street Improvement.

The Board of Public Works yesterday allowed the final estimate and approved the assessment roll for the improvement of Dougherty street. The work was done by the Western Paving and Supply Company, at a cost of \$16,755.32. The cost per front foot is \$3.65.

RUMORED STREET-CAR DEAL.

Reported that J. P. Frenzel Is to Buy the Youngstown, O. Plant.

A telegram was received here yesterday stating that a syndicate, with John P. Frenzel at its head, had completed all arrangements for the purchase of the electric street railway of Youngstown, O. Mr. Frenzel says there is no truth whatever in the report so far as it refers to him, and that he does not know of any such syndicate having been formed here. General Manager McLean, of the Citizens' company, was asked if he knew anything about the report, and said it was the first time he knew of any such deal. This is the company of which Mr. A. A. Anderson, formerly secretary of the Citizens' Street-railroad Company, is general manager.

Six Months for Assault.

Thomas Scott, colored, was tried in the Criminal Court, yesterday, for assault and battery upon Ulysses Smith, with whom he quarreled over a game of craps. Scott was sent to the workhouse for six months. Thomas Watson received three years for burglary, and John McLaughlin, accused of petit larceny, was sent up for two years.

LEXON TONIC SAXATIVE CURES CONSTIPATION 50 CENTS. AND ALL ITS BAD RESULTS. ALL DRUGGISTS.

CONTRIBUTIONS FOR MISSIONS.

Large Sum Collected Among Churches of Central Baptist Association.

The second day's session of the Central Baptist Association started with a good attendance. Rev. Noah Harper conducted the opening service for half an hour. Rev. J. F. Williams, chairman, called the meeting to order for business, which began with the consideration of State missions. The first speaker told of many important cities in which the State Mission Board had started new churches, and many of them are now well established and are now strong organizations for aggressive work. The discussion aroused much interest, and was participated in by Rev. C. H. McDowell, Judge J. A. Abbott, of Lebanon, W. C. Smock, Rev. A. Ogilvie, Mrs. N. Carr, of Franklin, and others. Education was the next subject considered, and was introduced by an address by Prof. C. E. Goodell. He discussed the great social questions of the day and the relation of education to a solution of these questions. Home missions, as represented by the American Baptist Home Mission Society, was considered in an address by Rev. Dwight Spencer. "Foreign Missions" was the last question considered. Rev. J. A. Knowlton was the first speaker. The last session of the association, in the afternoon, was given up to the Women's Missionary meeting. An excellent programme had been prepared, and the meeting was presided over by Mrs. E. J. Foster. In addition to the \$4,634.40 contributed by the churches, the association, the women reported \$307.87 contributed for foreign missions by the women of ten churches. Mrs. M. A. L. Colton served as Women's Foreign Mission secretary of the association. The women of the ten churches had given for women's home missions \$382.37.

The County Teachers.

Professor Elstun talked to the Marion County Teachers' Institute, yesterday, on the training and development of the mind. Professor Bass took up Professor Elstun's old subject, "Language," and addressed the teachers at some length on it, devoting much time to the development of sentences and to words in their relation to sentences. Prof. H. M. Butler spoke on the elements of music.

Schuyler Haughey's Case.

Schuyler C. Haughey's case will not be called in the federal court before some time in November. Judge Baker said yesterday that no action whatever would be taken in the case until then.
